2021 Medicare Advantage

IU Health Plans IU Health

It adds up to a better
Medicare Advantage experience.

Everyone likes to get something extra. And for those who already trust Indiana University Health for their healthcare needs, Medicare Advantage plans from Indiana University Health Plans offer a big plus: We're the only health insurance provider that's part of IU Health.

We work together to offer more.

Through our unique integration of plan and healthcare system, members can expect **a more personal and coordinated approach**—for a better overall experience.

Our integration with **IU Health providers delivers physician-driven care and a deep understanding of members' health and wellness concerns**, with solutions tailored to the health risks and needs of Hoosiers.

Our locally based Member Advocates can save members time by...

- Answering both insurance and provider questions, and can even help make doctor appointments—often in a single call.
- Offering **Provider Match**—a **personal service** to help members find the right **IU Health provider** based on specific needs, including where they live, medical specialty and even other preferences such as language.

It all adds up to a Medicare Advantage experience no one else in Indiana can offer—and that can change everything.

Use our helpful tools and resources to assist in your sales process.

Easy-to-read sales kits

Kits include two enrollment applications and scope of sales appointment forms.

Broker resource webpage

A dedicated webpage for brokers to download useful educational/plan information and marketing materials.

Online enrollment tools

Capabilities include online enrollment, electronic scope of appointment and quick quotes to make it easy for you to work from anywhere.

"Medicare Made Easy" resources

A variety of ways to walk your clients through the ABCs of Medicare, with information including deadlines, types of Medicare plans available and the differences between plans.

For broker use only

Medicare Advantage plans from IU Health Plans
